

“Sick Student” Screening Tool - Kauai

SECTION 1: Symptoms - check all that apply

- G** Temperature $\geq 100.4^{\circ}\text{F}$ (38°C) when taken by mouth
- G** Sore throat
- G** New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline)
- G** Diarrhea, vomiting, or abdominal pain
- G** New onset of severe headache, especially with a fever
- R** New loss of smell or loss of taste, **without** nasal congestion

SECTION 2: Close Contact/Potential Exposure - check all that apply

- Y** Household member in quarantine for travel.
- Y** Student had traveled off Kauai in the past 14 days.
- R** Household member in quarantine for exposure to COVID-19 in the last 14 days.
- R** Had close contact (within 6 feet of an infected person for at least 15 minutes) with a person with confirmed COVID-19 in the last 14 days.

SECTION 3: Current COVID-19 Community Risk Level - check only one

- G** Controlled numbers of COVID-19 with little to no community spread
- Y** Few unrelated COVID-19 community acquired cases **
- R** Many unrelated COVID-19 community acquired cases, contact tracing no longer controlling spread

G - Green (Low Risk for COVID-19)

Y - Yellow (Medium Risk for COVID-19)

R - Red (High Risk for COVID-19)

**Community acquired case = not related to another positive COVID-19 case and unrelated to travel
